### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Ballas on 3/2/05.

The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 7-18.

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims is the inclusion of the feature of an array that comprises a first gate shorting bar having a plurality of contact holes, a second gate shorting bar spaced apart from and parallel to the first gate shorting bar, and having a plurality of second contact holes, a plurality of gate lines perpendicular to the first and second gate shorting bars; a plurality of gate pads connected to the gate lines, wherein each gate pad has a corresponding gate pad contact hole, a plurality of first pad connectors connecting an odd numbered gate to the first gate shorting bar via a corresponding gate pad contact hole and first connecting contact hole; and a plurality of second pad connectors connecting an even numbered gate to the second gate

shorting bar through a corresponding gate pad contact hole and second connecting contact hole, which is not anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
